Carson City, Douglas, Lyon, Mineral, Storey, Washoe

Maureen Conlin is a composer/lyricist and children's music entertainer/educator providing musical education/entertainment and interactive fun for young children through community and business events, preschool, daycare and elementary school visits, classes and educational workshops. In 1993 she created Happy Notes Music, a music program that provides children ages 2 to 7 with classes that encourage them to explore and experience music through creative activities and songs. Maureen has recorded 5 children's music CDs, presented workshops in the USA and Europe, and developed a music curriculum for Ewin Innovative Education International for presentation in Beijing, China. Her approach to music education in early childhood is to use music, songs and activities that encourage interaction with children and to have them explore, experience and create with music.

Maureen's training began with a degree in Social Work from Providence College in 1978. She has taken post-graduate classes in music and early childhood education and numerous seminars and workshops for professional development through the National Association for Education of the Young Child, Children's Music Network, and the Child Care Education Institute. She is a 2014 graduate of the Nevada Early Childhood Leadership Academy.

School & Community Workshops

Themed Music Classes: 30 to 45 minute themed music classes for young children at preschools, childcare centers, and community organizations. Topics include: Health and Hygiene, Recycled Rhythm, Nature's Music, Get Up and Move

Professional Development

Creating an Interactive Musical Experience in Early Childhood Education Programs: introduces using music in the early childhood classroom setting with ideas, songs, activities, instruments, dramatic play, puppets, and more.

Music and Movement in Early Childhood Education: how to develop an arts curriculum and incorporate music into daily routines in the classroom.

Successful Practices Using Music and Activities for Children Two to Five: a burst of new ideas--music and musical activities that can be used to help young children with transitions, active play, and interaction with other children; and to encourage outdoor experiences, healthy hygiene, and positive attitudes. Introduces recycled rhythm on a budget and available resources in the children's music industry.
